There are many occasions when it is preferable to rent a Persian rug or Oriental carpet, rather than going to the expense of purchasing the rug or carpet which will only be used for a limited time. Persian rugs are an essential decorative item that may be used for Film and photo shoots as well as Theatre sets and special occasions, they can also be an important tool when used in visual merchandising. Oriental rugs and carpets which are used in period films have to be specially chosen to reflect the correct date being portrayed. We are happy to work with many professionals who are in the real estate trade, photographers, weddings, film/movies production, set designers, broadcast television, publications, etc. and make available for short or long-term rental many of the extraordinary rug pieces in our high-end showroom. Whether it is a one week, one month or two year time frame, we offer the lease term options you need.

We have worked in the past 30 years with famous movies, television shows, photographers, etc. Our rental service is resourceful, dependable and reliable we take every event seriously to get you the results you need.
